

current need:
to raise
\$2 million by
year-end 2011

Founded in 1979, SDG Alarmtronics has been securing Central Jersey's businesses and homes with integrity and professionalism for three decades. SDG Alarmtronics specializes in custom security solutions for a broad spectrum of businesses. Just as we have provided protection for your valuable assests, Hunterdon Healthcare has been providing the health care needs for your family and for all in our community.

We have invested in a New Generation of Care at Hunterdon Healthcare. We hope you take this chance to pledge your support and help your community hospital be the best it can be for us all.

THE CAMPAIGN FOR
HUNTERDON HEALTHCARE

MEETING THE CHALLENGE

results in an extra \$3 Million to our \$15 Million goal!

An anonymous grateful patient family has offered a \$1 million gift to "Investing in a New Generation of Care", the campaign for Hunterdon Healthcare, with the challenge that we raise an additional \$2 million by December 31, 2011.

The campaign has garnered unprecedented support to date with over \$9 million raised toward its overall fundraising goal of \$15 million. "Investing in a New Generation of Care" is helping to underwrite a \$22 million multi-year facility and technology enhancement project that will allow for comprehensive clinical program expansion in three key service areas: cancer treatment, surgical services and cardiovascular care. Meeting the challenge will result in an additional \$3 million towards that goal, bringing the total raised to over \$12 million by year-end 2011.

The campaign's first major milestone, the expansion of Hunterdon Regional Cancer Center's new radiation oncology wing was completed in 2010. Currently underway, the expansion of Hunterdon Medical Center's surgical suite, to include the construction of two new state-of-the-art operating rooms, will be completed in 2011. The campaign's final project, to begin in 2012, will centralize all acute cardiovascular care services, creating a new floor above the hospital's existing 3 West wing. This new critical care unit will include two new catheterization labs and approximately 20 new private patient rooms.

[Help Us Meet the Challenge!](#) Make a pledge today by filling out the attached form and returning it to:
